

Ukrainka  
w Polsce

## **Together for a common future!**

We help Ukrainian women in Poland  
to live with dignity. We show them the path  
to personal and professional development.

**Wrocław, Polska**

## Who am I and why am I doing it?

I am a Ukrainian from Donetsk and a Pole from Wrocław who has gone through my own path of personal and professional growth – from being an emigrant to becoming a citizen of Poland. Today, I am fighting to prevent the professional degradation of Ukrainian refugees through education and by building social and economic security. ([read more](#))

**I stand for personal and professional development of women to prevent them from social and professional degradation in Poland.**

## About „Ukrainian Woman in Poland”

We help Ukrainian women, who had to escape from war, to integrate with Polish society through education and psychological support. The Foundation is providing wide range of workshops and classes aimed at professional activation on labour market in Poland and opening own business in Poland.

The Foundation is supporting teenagers, who are migrants and/or war refugees at the age of 15-16 y.o.+, who are close to employment age and about to choose their future career path in Poland.

## Our mission

We inspire for mutual search of opportunities between Poles and Ukrainians. We connect people - business, organizations, authorities, politicians, celebrities and friends around the Foundation's project activities.

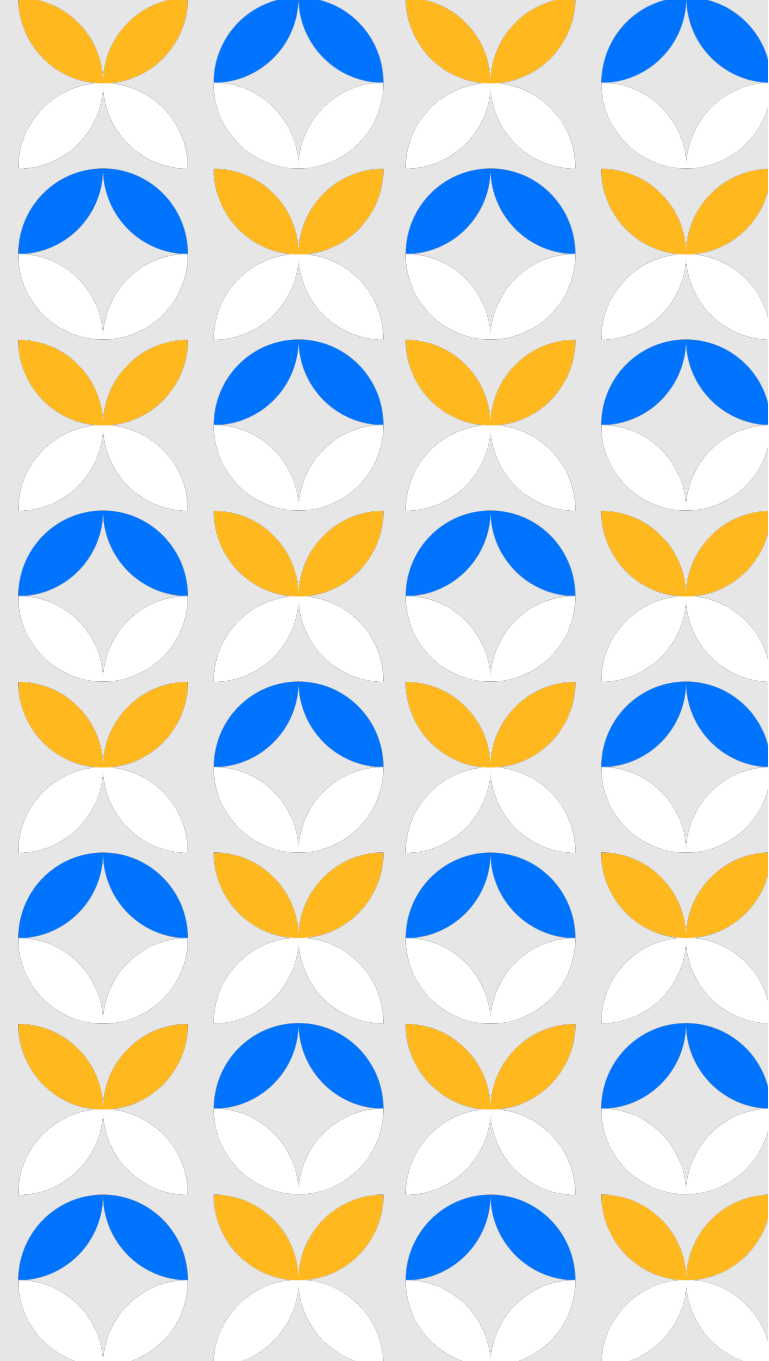

**Why are we doing this?**

**1 750 000 talents...**

... most of whom **are working below their qualifications.**

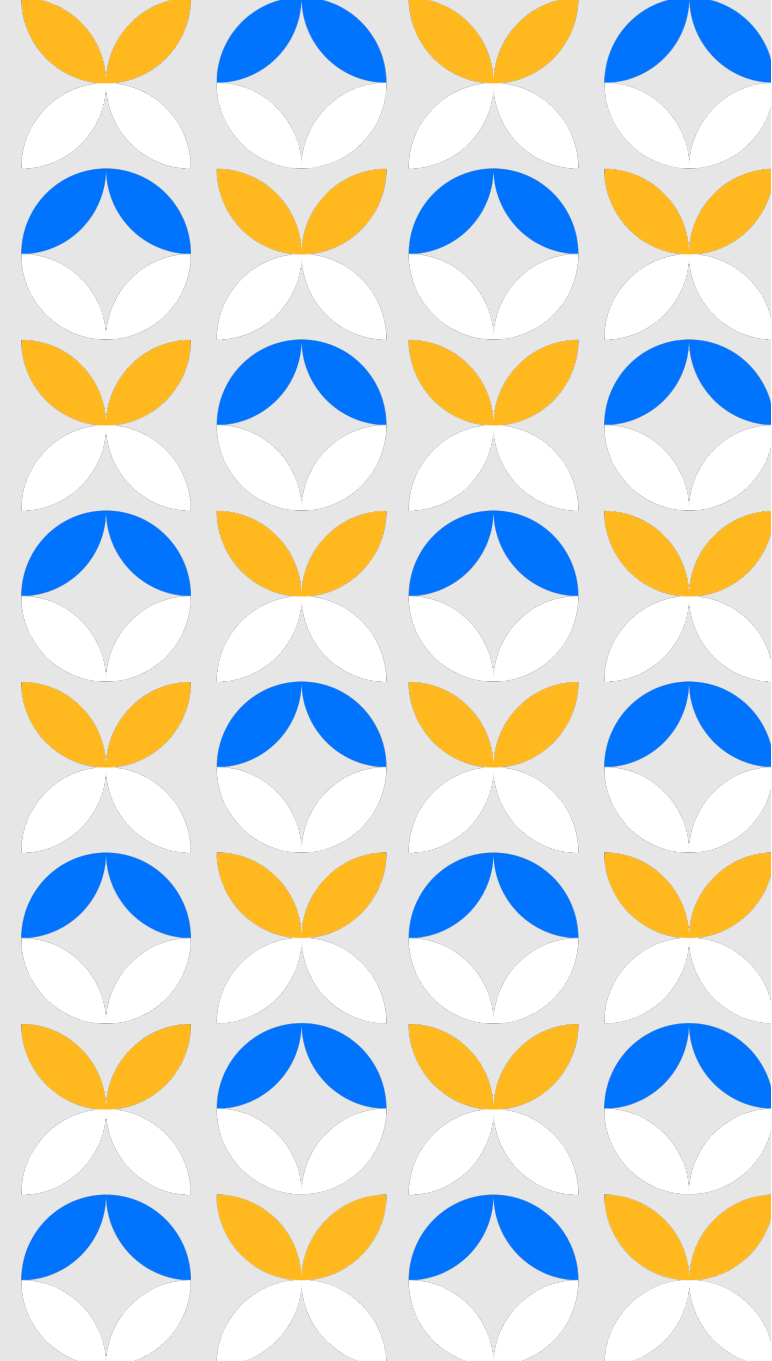

## ...Why are we doing this?

There are almost 2 million Ukrainian war refugees in Poland. 87.5% of them are women and they need help in professional activation. **Ukrainian women work below their qualifications.**

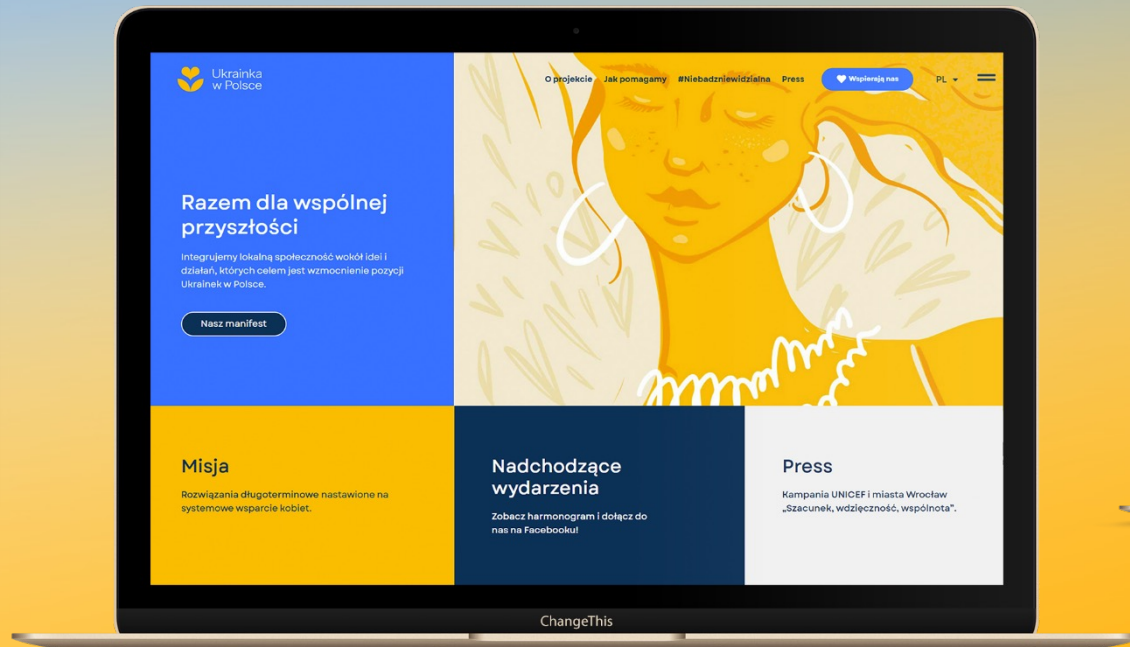

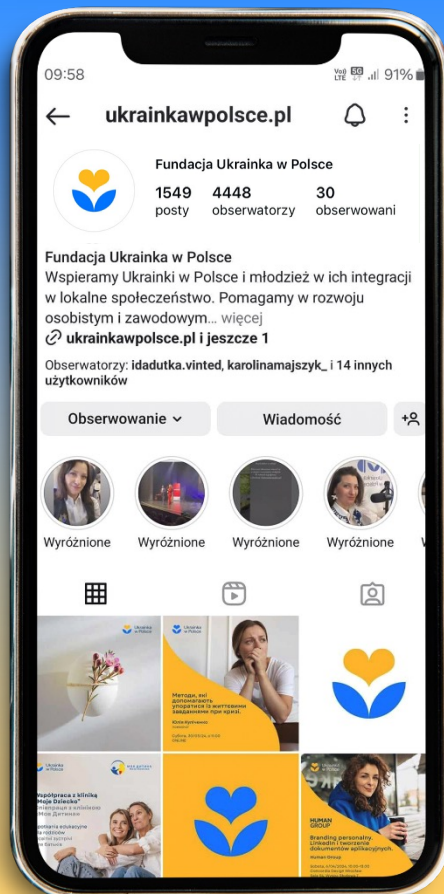

Poland is struggling with labor shortages. We need the support from business and individuals, who want to change the situation of Ukrainian women and support the Polish economy.

## ‘Equality Means Business’

Ukrainian women with their talents, competences, experience and energy to act will strengthen the private sector in Poland.

By including Ukrainian women in the mainstream of the Polish business environment, we help companies to engage in business strategies taking into account the principles of gender equality in the labor market.

Our activities are part of the UN Global Compact initiative, whose main motto is ‘Equality Means Business’.

w Polsce

## How we do it

Together with business, NGOs and public institutions, we create an ecosystem in which women from Ukraine can develop in business and contribute in their new place of residence.

## Main areas of operation:

- Psychological support;
- Educational support (creation of CV, recruitment process, personal branding on LI, business opening, accounting, legal workshops, building your own brand, sales skills and development of entrepreneurship in Poland);
- Integration trainings with the involvement of businesses, NGOs and local governments.

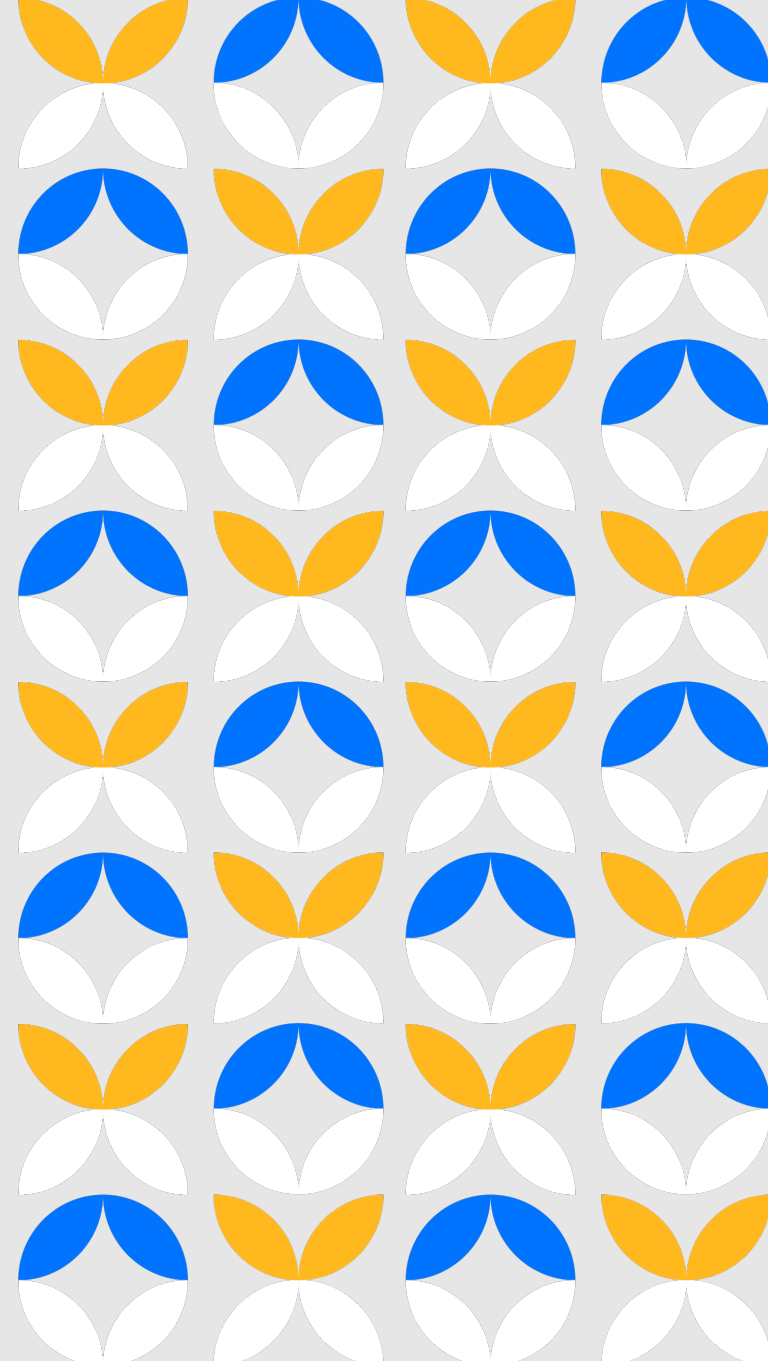

”

**We support you in  
taking your first steps.  
You'll do the next ones yourself.**

## Beneficiary groups

- Ukrainian women who are looking for a job, professional support in starting and developing a business in Poland.
- Companies from various industries that can recruit Ukrainian women for work.
- Organizations that are active in women's empowerment.
- Local public institutions.

# About the Program

## The Ukrainka360°

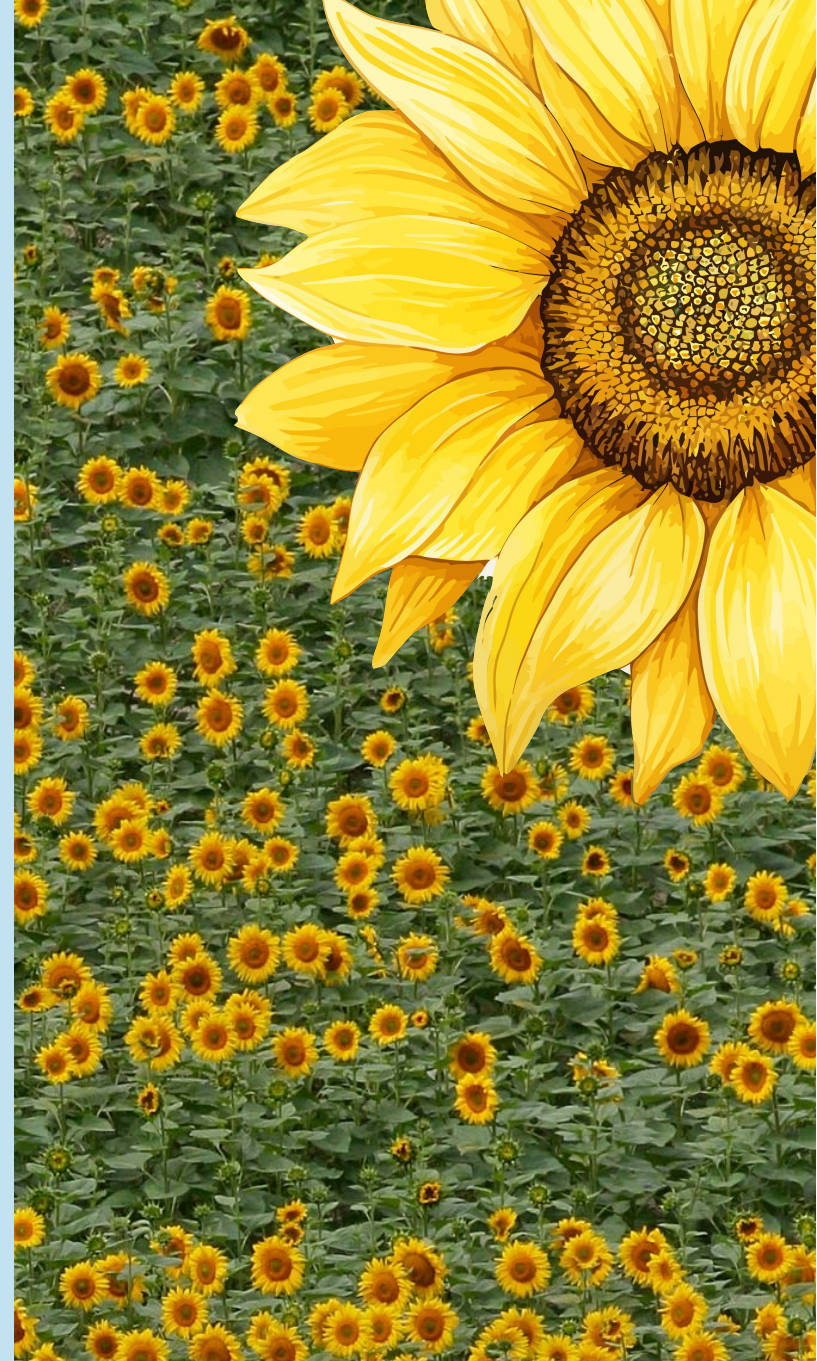

Program, initiated by the Foundation Ukrainian in Poland, is a program that brings together people from various backgrounds and industries to support the professional development of Ukrainian women in Poland by achieving two goals crucial for social security:

Preparing Ukrainian women living in Poland to:

A / enter the Polish job market, or

B / start their own business in Poland.

We create a platform that enables experts from various fields to share their knowledge and engage into integration of Ukrainian women in Poland.

**Support our activities.  
Join our community.  
Let's build the common  
future together.**

**We need each other.**
